

# X-PLANES AT *Armstrong* Flight Research Center

Experimental aircraft researched and tested at NASA's Armstrong Flight Research Center in Edwards, California.

**X-1**  
Rocket-Engine-Powered  
Aircraft

**D-558-I Skystreak**  
Transonic Research Airplane

**X-4 Bantam**  
Semi-Tailless Aircraft

**X-15**  
High-Altitude  
Hypersonic Aircraft

**X-24**  
Lifting Body Research

**D-558-II Skyrocket**  
Transonic Research Airplane

**X-5**  
Variable Sweep Wings

**XB-70 Valkyrie**  
Supersonic Strategic  
Bomber Prototype

**HL-10**  
Lifting Body Research

**X-2 Starbuster**  
Supersonic Swept Wing

**XF-91**  
Thunderceptor  
High-Speed Combat  
Interceptor

**M2-F1**  
Lifting Body Research

**X-3 Stiletto**  
Supersonic Flight Research

**XF-92A**  
Delta Wing Concept

**M2-F2/M2-F3**  
Lifting Body Research

1940S-1950S

1960S

**X-29**  
Forward Swept Wing

**X-Wing**  
Rotor System

**X-30**  
Advanced Technology Demonstrator

**X-31**  
Enhanced Fighter Maneuverability

**X-33**  
Advanced Technology Demonstrator

**X-34**  
Advanced Technology Demonstrator

**X-37**  
Autonomous Spaceplane Technology Demonstrator

**X-40A**  
Space Maneuvering Vehicle

**X-36**  
Tailless Fighter Agility Research Aircraft

**X-38**  
Prototype Crew Return Vehicle

**X-43A**  
Hypersonic Experimental Vehicle

**X-45**  
Unmanned Combat Air Vehicle

**X-53**  
Active Aeroelastic Wing

**X-48**  
Blended Wing Body

**X-56A**  
Multi-Utility Technology Test Bed

**X-57 Maxwell**  
Electric Propulsion Airplane

**X-59**  
Supersonic Flight Research

**X-66A**  
Sustainable Flight Demonstrator
